Terms & Conditions

Conditions of Use of Our kitchen Annex

The Watermill cannot provide gas or stoves for any cooking purpose. Caterers must provide their own cooking oil. Outside caterers must provide their kitchen porters and all rubbish must be removed from all areas including the kitchen and function suites before their departure. Skips are available on-site. The kitchen shall come with refrigerator, freezer, stainless steel work surfaces, sinks and rubbish disposal facilities. The Watermill does not provide caterers with any form of cleaning products for the kitchen, therefore we advise clients to notify their preferred caterer to bring all the necessary items in order to return the kitchens back in the manner which they were provided. Outside caterer will need to provide health and safety documentation, pat certificate and liability insurance 4 weeks prior to the event.

Bar Facility

Clients are allowed to bring in their own Beers, spirits, wine and soft drinks. Therefore, all equipment, glasses and staff shall also be provided by the client.

Health & Safety and Insurance

The kitchens must be left in a clean and tidy state. All matters concerning health and safety, hygiene and fire regulations must be strictly adhered to. Outside caterers should be suitably certified and carry their own third party insurance against accidents and injury arising whilst on The Watermill Hotel premises. The hotel will not allow any suppliers, items or objects into the venue if it deems that these would be a potential hazard or risk.

Security

The hotel can have the right to hire security for any event it deems necessary. The number of guards booked will depend on the number of guests you have attending the wedding, additional security charges may apply.

Liquor / Music Licence

UK licensing laws are very strict and the Watermill hotel will take any steps felt necessary to protect its licence. Any infringement of the licensing laws may result in the summary curtailment of your event. Infringement of licensing regulations may result in the loss of your bond. The decision of the premises licence holder or an appointed representative is in all matters. Due to the close proximity of neighbours, The Watermill Hotel has a sound limiter in place. If sound levels become too high, the limiter will cut the sound to the specified decibel limit. We do not permit any live bands or external speakers into the venue. We recommend that you notify your DJ in advance to come and check if our speaker systems are compatible with their equipment in order to eliminate any issues prior to the event date. It is recommended that DJ's allow time to sound check before an event, which should enable them to operate effectively.
